50NL	1.08	192L		5				
60NL	1.63	160L		5				
80NL	2.76	120L		3				

* Operating Temperature: -10°C to 150°C

Features KANA Ultra (oilless type) Chains are maintenance-free chains using special oil-impregnated bushings for self-lubrication. Use them for places where lubrication is hard to implement or should be avoided. Black oxide finish is implemented on the plate to improve corrosion resistance. In addition, a nickel plating type is also available.

 and

Order Method

 **Same-day shipping (Unit Only)**

Postage * Products with dimensional cutting are shipped in 3 working days.

 **Precautions**

- * Because the inside plate is designed to be thick, pins are longer than those of standard chains.
- * Although standard sprockets can be used for single row chains.
- * Dedicated sprockets are required for multiple row ones. Coupler links of 80NL are cotter pin type.
- * Dimensional cutting products will be charged as a combination of product price with chain cutting fee included.
