

# Lubricant Oil/Cleaning Agents

## ● Order No. Example Kanalon 1P

Name

### ◇ Kanalon (lubricant oil especially for chains)

- \* It has excellent lubricating sustainability with no spattering during transmission due to its permeation.
- \* The chain is protected due to the rustproofing effect.
- \* Pinpoint spraying possible because spraying can be done at any inclination.

### ◇ Kanalon-High KLH-2300 (heat-resistant lubricating oil)

- \* Ideal for conveyor chain lubrication at high temperatures in drying equipment, and so on.
- \* JISK2265 with an ignition point of 270°C or more.
- \* Can be used in an environment from 180°C to 260°C.

### 420mℓ Folding Nozzle Type

Name	Internal Capacity	Quantity Contained	¥	Delivery
Kanalon Kanalon 1P	420mℓ	1 unit		●
Kanalon 20P Kanalon 20P		20 unit		●

### 4ℓ Can With Attached 420mℓ Nozzle

Name	Internal Capacity	Quantity Contained	¥	Delivery
KLH2300 Kanalon-High Spray KLH-2300 420ml	420mℓ	1 unit		●
KLH230012P Kanalon-High Spray KLH-230012P		12 unit		●
KLH23004L Kanalon-High Spray KLH-23004L	4ℓ	1 can		●

### ◇ Helper Spray (penetrating oil/water repellent/ moisture-proof/rust-proofing agent)

- \* Motion is smooth with little creaking, with a water-repellent action and rust-proofing effect.
- \* Please use as an anti-corrosive for all metals such as rusty screws or sliding parts.
- \* 1 Case x 12 Units Included

### ◇ Molybdenum Paste Spray (paste-type rust-proofing lubricating agent)

- \* A paste type with excellent oil retention and penetrating ability.
- \* Squeaking of connecting parts and springs is prevented over a long period of time.
- \* Organomolybdenum compounding agent
- \* 1 Case x 12 Units Included

### 420mℓ Folding Nozzle Type

Name	Internal Capacity	Quantity Contained	¥	Delivery
HLP Helper Spray 1P	420mℓ	1 unit		●

### Attached 420mℓ Nozzle

Name	Internal Capacity	Quantity Contained	¥	Delivery
CNP Molybdenum Paste Spray 1P	420mℓ	1 unit		●

## Lubricant Oil/Cleaning Agents

◇A1 Tap Paste (cutting fluid for tap processing)

! Cannot be used for copper and copper alloys.

Name	Internal Capacity	Quantity Contained	¥	Delivery
A1T-25 Tap Paste 2.5K	2.5kg	1 can		○

◇New Machine Cleaner Super (a high-strength cleaning agent with a faint odor)

\* For cleaning the exterior of machinery and parts, for vehicles, and cleaning engine rooms.

! There is no rust-proofing effect in water-soluble liquids. Please use a separate rust-proofing treatment after use of metal surfaces which have not been coated.

! Please do not use to clean glass or aluminum.

Attached 500mℓ Spray Gun Water Soluble

Name	Internal Capacity	Quantity Contained	¥	Delivery
New Machine Cleaner Super 4L	4ℓ	1 pc.		○
New Machine Cleaner Super 18ℓ	18ℓ	1 box		○

◇A1 Multi-EP Grease No. 2

\* Dedicated grease for use with the KANA standard coupling.

\* A multi-purpose type of grease of lithium soap base blended at extreme pressure, it is well suited for bearings that are subject to the high load accompanying impacts, or for sliding surfaces, for example.

Name	Internal Capacity	Quantity Contained	¥	Delivery
MBSG04 Grease EP No.2 0.4K	0.4kg	1 unit		●
MBSG05 Grease EP No.2 0.5K	0.5kg	1 pc.		●
MBSG25 Grease EP No.2 2.5K	2.5kg	1 can		○
Grease EP No.2 16K	16kg	1 can		○

◇High-Tac EP (industrial gear oil)

\* Viscosity: JIS K2001

Name	Viscosity	Internal Capacity	¥	Delivery
High-Tac EP100 20L	100	20L		○
High-Tac EP150 20L	150	20L		○
High-Tac EP220 20L	220	20L		○
High-Tac EP320 20L	320	20L		○

Name and Quantity and quantity of cases

● Same-day shipping ○ 3-day shipping

\* Single order system available
