

Tensioner TM Series

Automatic Tensioner (TMB)

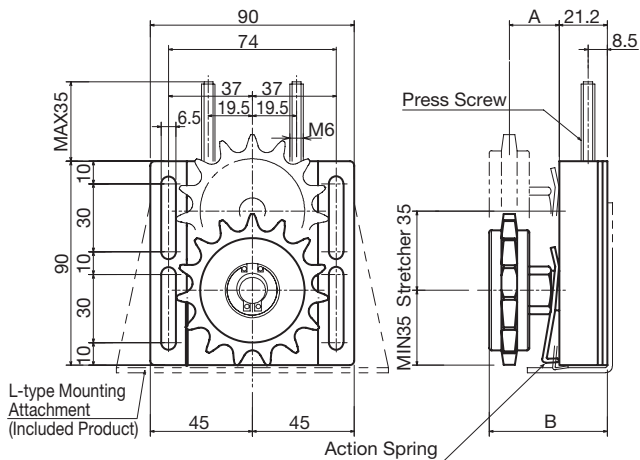

● Order No. Example

TMB60

Tensioner No.

TMB

Chain stretch causes transmission efficiency to drop. It also accelerates chain and sprocket wear and shortens service life. The KANA Tensioner automatic tension type is provided with a standard idler and is operated by a built-in spring.

◇ Tensioner TMB Type (w/ Standard Idler Sprocket)

Tensioner No.	Applicable Roller Chain	A	B	No. of Idler Sprocket Teeth	Weight (g)	¥
TMB-35	JIS35	22	52	18	740
